

### North Road Clearing Project

We wish to thank Harry and Gail Chase for allowing us on their farm to open views of their stone walls, fields, and a little of Dutch Harbor for our community to enjoy.

Also, our thanks to the wonderful volunteers who descended on the farm promptly at 8:00 am and worked until the job was done. We had no expectation that so much would be accomplished, and we and Harry and Gail were overwhelmed by the volunteer effort. You have our deep appreciation.

Special thanks to the island businesses who made the day successful:
