

# ON NOVEMBER 6TH . . .

## Barbara Szepatowski TOWN COUNCIL

- I would like to have a second term to finish the projects I have started including building an animal shelter for the Island.
- I have worked to serve the interests of the businesses, island teens, and all Jamestown residents the past two and half years.
- I spearheaded the effort for an Island

Teen Center which I am proud to say will open December 1st. I am now proposing a Juvenile Hearing Board to be coupled with a Volunteer Corps, made up of adults who would serve as role models for island teens who are going through challenges.

- I will address the water/sewer rate crisis and look for new solutions to the lack of affordable housing in our town.
- I want to see island businesses operate in a vibrant, well managed downtown district.
- I ask for your vote for a second term so I can continue to serve you and your family.

## David DeAngelis TOWN COUNCIL

- I have been honored to run among a qualified field of candidates this fall but I want to be clear. I believe Jamestown is at a critical crossroads.
- I worry that our island community is on the verge of being permanently transformed into more of a vacation home retreat and less of a year round family community.

That transformation would have dramatic ramifications, such as: A seasonal, second home-based economy would trigger a severe off-season slowdown to most businesses, resulting in closures to some long established, family businesses, throwing our tax revenues into disarray.

- The ranks of our volunteer firefighters (unsung heroes) would vanish as the island becomes no longer affordable to ordinary families.
- I want to see Jamestown remain a family-centered, year-round community and not become an exclusive resort island. I will fight for you and ask for your vote.

## Fred Glomb TOWN COUNCIL

- I am making my first run for office because I think better management of the town is needed.
- I believe my background as a government consultant both nationally and locally will be an asset to the Council.
- I would explore consideration of a homestead exemption for permanent,

year round residents.

- I want to see a change in the water/sewer rate structure so that downtown businesses and the village get some relief from the spike in rates.
- I believe careful management of island growth is needed and will be a top concern in the next few years.
- I can serve all islanders interests and ask for your vote.

## Melissa Burrows \*SCHOOL COMMITTEE\*

- I am a fourth generation Jamestown-er and this is my first run for office.
- I am putting two children through our schools and want to see our schools succeed for all children.
- My children have been in Special Education programs and have thrived because of the expertise and dedication of our teachers and administrators.

- We need to continue to strike a fair balance between bringing innovative methods to students needing special help and bringing a first rate curriculum to the General Ed students.
- Jamestown has been a leader in both areas and those programs need to be continued and supported.
- I will work to support both groups of students and ask for your vote.

# PLEASE VOTE FOR BARBARA ★ DAVID ★ FRED ★ MELISSA ON NOVEMBER 6th.
