

CAN WE HAVE THANKSGIVING DINNER AT YOUR HOUSE?

All of these homeless pets are looking for a new family for the holidays. Will you consider helping? Each pet has been vet checked; and if applicable, is spayed or neutered, and up-to-date on their shots. All previously enjoyed the comforts of a loving family, but due to the owner's death, a relocation, or irresponsibility, all are asking for the biggest present of all -- love and a warm place to call their home for the holidays.

Calvin

Calvin is a 2 year old, neutered male, "Tree Walking Coonhound", who is a big "mush" and very lovable. He has lots of energy and is great with kids and other dogs. Calvin comes with free "Potter League Obedience Training" for the rest of his life. He walks well on his leash and knows his basic commands. He needs a fenced in yard, would love another dog to live with or 20 for that matter. He needs plenty to do so he won't get bored. His owner travels so he is up for adoption.

Foxy

Affectionately known as *Foxy Momma Cat*. She was found in the woods with a litter of kittens, at "Foxwoods Casino." All of the kittens were adopted. Foxy is about 4 years old, spayed, gets along great with other cats and will tolerate dogs, although she will eventually rule the the house. She is not used to small children and needs someone who is gentle.

Coco

She is a one year old, spayed, female calico cat. Unlike most Calicos, she is very friendly and out going. Coco was found in-town, just calmly roaming the streets. She has been in foster care since May, but her foster parents are moving and can not take her with them. She tested negative for Kitty AIDS and Leukemia. She gets along well with other cats and children.

Lily

Lily is an adorable, petite, compact (slightly chunky), female, orange tiger cat. Female orange cats are very rare as the color is predominately a male trait. "Lily" is very friendly with everyone and everything. When friends visit her they often say she is their favorite as she is a real love bug. Sadly her owner has allergies and can no longer keep her. Lily is 6 to 7 years in age, negative for Kitty AIDS and Leukemia, spayed and up to date on her shots.

Christine

Christine is a small, long haired, extremely beautiful, female calico cat. She is so beautiful, she knows it and acts accordingly. Christine is 6 to 7 years in age, negative for Kitty AIDS and Leukemia, spayed and up to date on her shots. She has lived with kids, dogs, and a guinea pig, so she is used to a busy house.

Sebastian

Sebastian is a 6 year old gray and white male cat who lived with a 96 year old woman on Long Island. During a recent thunderstorm "Grandma" picked him up to comfort him and he bit her. As a result, the family took the cat away from her and brought him to Jamestown. He needs to find a real home. Sebastian's only sin was being afraid of thunder. He is looking for a home where he wants to be the "King".

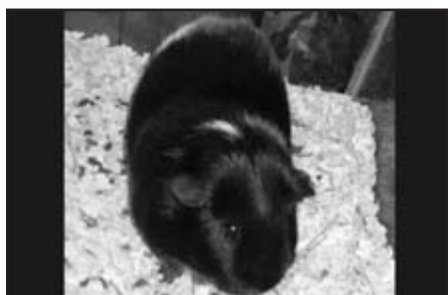

Jack

Jack was left on the steps of the "Animal Clinic" this summer with a pathetic note and \$24.00. He was unneutered, and supposedly up to date on his shots. He has since been neutered and tested negative for Kitty AIDS and Leukemia. He is approximately 2 years old, had a huge head, and is white and beige. Jack is very needy and loves to cuddle; he also loves other cats.

Naomi

Naomi is a very sweet cat when alone and will sit on your lap for a long time purring. She loves attention. We believe she is about 9 to 10 years old. She has been de-clawed and spayed. She needs a calm adult home where she is the only pet. She is fine when adults are around, but she gets nervous when children or other cats are around and she will sometimes hiss and growl.

Gweneth

Gweneth is a 6 year old, female, calico guinea pig. Her owner is allergic to her and needs to find a home for her. Gweneth is used to cats and dogs, but would prefer not to sleep in the same room with them, although daily interaction is acceptable. She comes with her own large cage and plenty of supplies.

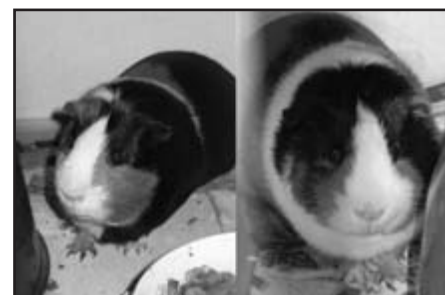

Prancer, Dancer & Vixen

Prancer, Dancer and Vixen are 3 gerbils bred and born in Jamestown. They are 2 years old and are available because their owner is in college. They come with a great cage and are hysterical to watch. They are very cute; these boys are also friendly and easy to care for.

Rocky, Bullwinkle & Snowey

Rocky, Bullwinkle and Snowey are 3 middle age ferrets who have moved more times than they can count. All 3 have now been together for 2 years and have a pack to stay that way. They live in a huge cage which is easy to clean. They want someone who will play with them, let them run around a bit, and love them. Is that too much for 3 middle age guys to ask?

Jonathan & Todd

Jonathan and Todd are male guinea pigs, calico in color, and approximately eight months old. Their family has no time for them and the children were not cleaning their cage, leaving it all for "Mom" to do. These two lovable piglets come with a large cage, food, and treats. They know what the sound of a refrigerator door opening means and will reward you with quiet requests for spinach and carrots.

If you want a wonderful and loving start to the holidays, please call Paws and Claws at 423-9677, or Barbara on her cell phone at 354-9200. Thank you and Happy Thanksgiving!
